

Halloween Safety Tips

Halloween is an exciting time for young children, filled with costumes, treats, and fun activities. Help keep children safe with these simple tips:

Costume Safety

Choose costumes that fit properly and do not drag on the ground to prevent tripping.

Use face paint instead of masks when possible so children can see clearly. Select bright-coloured costumes or add reflective tape and glow sticks to increase visibility.

Ensure costumes, wigs, and accessories are labeled flame-resistant.

Treat Safety

Remind children to wait until a trusted adult checks their treats before eating them.

Avoid choking hazards by monitoring hard candies and small treats.

Be aware of any food allergies and inspect ingredient labels carefully.

Walking Safely

Always accompany preschool children while trick-or-treating.

Hold hands when crossing streets and use designated crosswalks.

Stay on well-lit sidewalks and paths.

Teach children to walk, not run, between houses.

Visibility and Identification

Carry a flashlight or glow stick to help children see and be seen.

Consider placing contact information inside the child's costume in case they become separated from caregivers.

Home Safety

Keep walkways clear of decorations, cords, and other tripping hazards.

Use battery-operated candles in pumpkins instead of real candles.

Ensure outdoor areas are well lit for visitors.

Halloween Reminder

The best Halloween memories are made when everyone stays safe. With a little planning and supervision, preschool children can enjoy a fun-filled evening of costumes, treats, and community celebrations!

Happy Halloween!
